

Who We Are

Oncology & Hematology of Murray is located on the second floor, of the North Tower, at Murray-Calloway County Hospital, 803 Poplar Street, Murray, KY.

We are in very close proximity to the Regional Cancer and Infusion Center. This gives Dr. Ghanem the convenience of being close to his patients who are receiving treatment at the center.

What We Do

Oncology & Hematology of Murray offers a wide range of services that address cancer and blood-related conditions.

*"Once you choose hope,
anything is possible."*

Dr. Ghanem and Alison Sasseen's office is located at Murray-Calloway County Hospital, on the Second Floor of the North Tower, 803 Poplar Street, Murray, KY. To schedule an appointment or for more information, call (270) 762-1597.

A Place Called HOPE

Coping with cancer is stressful enough. On-going treatments, in an unfamiliar hospital in a far-away city, only adds to the anxiety. Fortunately, cancer patients in the Murray region can reap the benefits of the most effective treatments here at home using cancer physicians who live in the Murray community and cancer treatment techniques that are positively second to none.

With early detection and prompt treatment, cancer growth can be halted. Quality of life can be preserved. Treatment side effects can be minimized.

While working closely with the Regional Cancer Center at Murray-Calloway County Hospital, Dr. Ghanem is able to take the time needed to specialize in your specific needs while using the resources given at the Regional Cancer Center to better your health.

We have made a major investment in the Regional Cancer Center to insure the latest technology and the most specialized cancer treatments and care are available now in Murray.

MCCH, alongside The Foundation is currently planning for the future home of a new Regional Cancer Center, set to open in 2023. With the help of our donors, a vision will come to life for this state of the art facility, serving cancer patients in our region.

Our Providers

Zuhair Ghanem, MD - Dr. Ghanem graduated from Jordan University of Science and Technology in Amman, Jordan with his Doctor of Medicine. He completed a Hematology/Medical Oncology fellowship at Howard University Hospital, in Washington, D.C., as well as training at Georgetown University's Lombardi Comprehensive Cancer Center, National Institutes of Health and Johns Hopkins University's Sidney Kimmel Comprehensive Cancer Center.

Alison Sasseen, APRN - Alison graduated from Murray State University with a Bachelor of Science in Nursing and completed her Master of Science in Nursing also at Murray State University. She has 22 years of experience in hematology and oncology. Alison works alongside Dr. Ghanem planning care and providing follow up care to cancer patients in our region.
