

HOW ARE WE DOING?

Murray-Calloway County Hospital Geriatric Inpatient Program

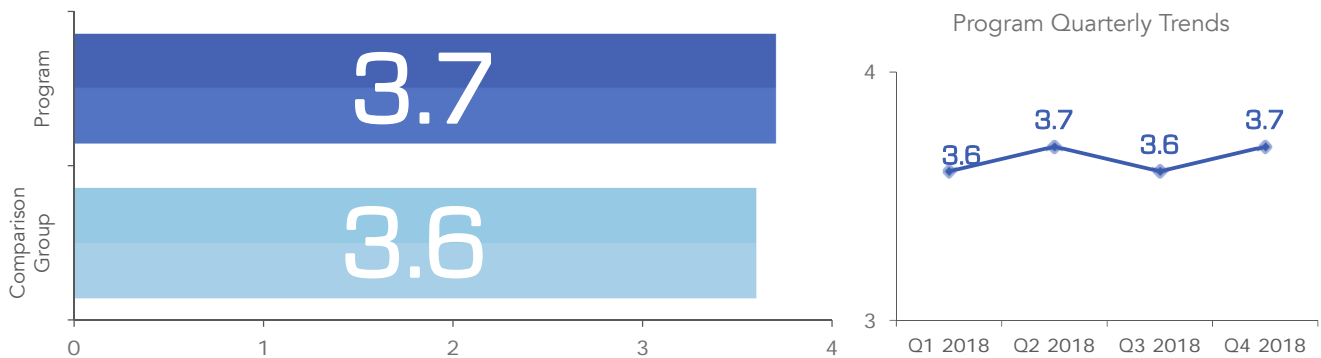

Murray-Calloway County Hospital's Geriatric Inpatient Program uses the CQI+ Outcomes Measurement System to monitor outcomes for change in patient satisfaction. The program has been collecting data since 2017.

Average Satisfaction

Patient Satisfaction is measured on a scale from 1 (Poor) - 5 (Excellent). The treatment program demonstrates greater average satisfaction compared to the national comparison group.

Helpfulness of Staff

Helpfulness is measured on a scale from 1 (Not at All) - 4 (A Great Deal). The treatment program demonstrates similar helpfulness of staff compared to the national comparison group.

Would You Recommend?

97% of patients would recommend the program to family members or friends who needed similar treatment.
